Figure 1 displays various map symbols and labels. The symbols include: Highway (solid line), Pipe/Power Line (line with cross-ticks), Stream/Shoreline (wavy line), Secondary Road (dashed line), Ridge/Physical Feature (line with small triangles), Intermittent Stream (dashed line with cross-ticks), Key Trail/Wakeway/Ferry (line with small circles), Property/Fence Line (line with small squares), River (wavy line with 'ce' label), Railroad (line with cross-ticks), Nonvisible Boundary (dotted line), Glacier (wavy line with 'Glacier' label), Military (blue dots), and Inset (grey box).

Where international state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

- ¹ A "°" following a place name indicates that the place is also a false MCD; the false MCD name is not shown.
- ² In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a '99' suffix. An anchor symbol appeared on the 1990 maps locating a crew-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.
- ³ A "*" following a block number indicates that the block number is repeated elsewhere in the block.
